

## MCWP Demonstrator

**Aim:** To instruct the trainee to safely operate and demonstrate the use of various types of Mast Climbing Work Platforms (MCWP). This includes familiarisation of the Users with their responsibilities, demonstrating pre-operational checks, safe operating procedure and the limitations of MCWP

**Course Entry Criteria:** As the assembly and use of MCWP can be physically demanding, users should be physically fit and in good health and should, generally, not have problems with eyesight or hearing, heart disease, high blood pressure, epilepsy, fear of heights/vertigo, giddiness/difficulty with balance, impaired limb function, alcohol or drug dependence or psychiatric illness. If you have any problems with literacy or language comprehension, or have any doubts about your fitness to use MCWP, you must bring them to the attention of your employer. This need not preclude you from using MCWP, provided your employer conducts an assessment and is able to put into place adequate measures to take account of any difficulties you may have. If any modules require for this application have been completed more than two years prior to application, then the theory tests for those modules (if any) should be retaken and re-assessed.

**Training Modules:**

- Basic MCWP Awareness, Regulations & Guidelines
- Product Specific - Operational Controls
- Product Specific - Emergency Systems
- Basic Health & Safety Awareness
- Pre-use Daily Checks
- Weekly Inspection
- Retrieval of Information
- Demonstrational Ability

**Assessment:** Will be by both a practical and a theoretical test, with a pass requiring an achievement of at least 80% in each assessment. The assessment of each module will be reviewed with the candidate at the end of the training to allow feedback and comments.
